LINKEDIN.COM/IN/ANDREWEHORNER

I am a passionate and enthusiastic junior front-end developer seeking to transition from the restaurant industry and hone my skills in a professional environment. With excellent communication skills and a keen attention to detail, I am capable of quickly and effectively learning new languages, frameworks, and software.

Technical Skills

- Object-oriented programming, Component Based Development, Agile Methodology
- C#, Ruby, JavaScript, CSS, HTML
- Blazor, React, React Native, Node.js
- **Familiar with:** ASP.NET MVC, Ruby on Rails, Test Driven Development(TDD), SQL

Recent Work Experience

CONTRACT WEB DEVELOPER | Various Customers | March 2020–present

- Helped design and build the HTML/CSS/JS for a new search landing page which allowed for deeper customization of search and a 90% improvement to search speeds
- Designed multiple components in Blazor to meet customer design requirements
- Updated and fixed display issues with third party components to match final website design
- Connected Blazor with Google Maps for immediate, real time interactivity
- **Blazor, C#, JavaScript, CSS, Bootstrap, HTML**

BARTENDER | Smoke BBQ Taqueria | May 2018–Present

- Mixes drinks and cracks wise

Projects – github.com/midhorner

Looking For Group – Academy Capstone Project

Working with a team, I helped identify and fix a network encryption error on Looking For Group's gaming server as well as update their games launcher. – **C#, ASP.NET MVC, WinForms, React**

Restaurant Website – NuCamp Portfolio Project

Built a mock website for the restaurant Smoke BBQ Tacqueria. – **React, Redux**

Web Apps – JavaScript, CSS, HTML

- Calculator – A calculator app written from scratch.
- Match Game – Flip and match cards. Your soul is on the line!
- Words Per Minute – Type the excerpts from classic works of literature as fast as you can! Includes a timer, your Best Time and WPM.

React Apps

- Pokemon Fight! – Two teams of randomly chosen Pokemon do battle.
- Coin-Flip – Flip the coin. Keeps track of Flips, Heads, and Tails.
